

KALAMALLA SUDHEER BASHA

DATA ANALYST

Hyderabad, Telangana | +91 7981292208 | ksudheerbasha721@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated MCA graduate and IT professional with hands-on experience in full life-cycle software implementation, business & technology solutions, and business user engagement. Proficient in Python, SQL, React.js, FastAPI, Power BI, and Docker.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, HTML5, CSS3.

Web Frameworks & Dev: FastAPI, React.js, Vite, CSS, Unicorn.

AI & LLM Engineering: Retrieval-Augmented Generation (RAG), Gemini API, Groq Cloud (Llama 3.3 70B).

Data Analytics & Libraries: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Advanced Excel, Tableau

Databases & ORMs: PostgreSQL 15, SQLite3, SQLAlchemy (Async)

Tools & Infrastructure: Docker, Docker Compose, GitHub Actions, Git, GitHub, VS Code, ReportLab (PDF Gen)

KEY PROJECTS

AI Data Science Tutor | FastAPI, React.js, PostgreSQL, Docker, Gemini API January 2026 - June 2026

- Developed a mastery-based learning management system enforcing progression locks to guarantee concept mastery
- Integrated a context-aware AI Tutor chat utilizing the Gemini 2.5 Flash API with RAG prompting based on lesson materials for instant concept explanations and query resolution
- Engineered an automated Python script evaluator providing line-by-line constructive feedback, and a dynamic PDF certificate generator using ReportLab's vector coordinates.

AI Resume Agent | FastAPI, Tailwind CSS, SQLite, Docker, Groq API (Llama 3.3) March 2026 - June 2026

- Engineered an automated ATS customizer that extracts resume text and compares it against Job Descriptions using a pre-check filter to flag skill and experience gaps before application
- Leveraged Groq's Llama 3.3 70B model to dynamically rewrite and optimize candidate summary and bullet points to match target job descriptions while ensuring factual consistency
- Built a local CRM database dashboard tracking companies, role match scores, application status, and automated Word file generation

JobPulse | FastAPI, HTML5, CSS3, SQLite, GitHub Actions, python-jobsby, Pandas June 2026

- Designed a web-based Job Search CRM and automation scanner crawling job vacancies across major job boards and ATS platforms
- Implemented dynamic experience filtering and key-phrase rules to eliminate mid-to-senior roles, focusing exclusively on entry-level IT and developer roles
- Created a custom RAG search capability using a TF-IDF Cosine Similarity engine to query jobs and rank vacancies by relevance score using candidate resume text

EXPERIENCE & INTERSHIPS

Python Intern Developer – ShadowMinds Technologies 2023-2024

- Developed Python-based business and technology solutions (Pandas, NumPy) for real-world data processing pipelines
- Engaged with business users to gather requirements, implemented solutions, and provided ongoing support — gaining full life-cycle experience
- Demonstrated customer service attitude delivering automation scripts to non-technical stakeholders, adhering to standard procedures and organizational policies throughout all deliverables

EDUCATION

MCA (Master of Computer Applications) | Spirits College of MCA, Kadapa, AP (8.4/10) 2024-2026

B.Sc. in Mathematics, Statistics, and Computer Science | Loyola Degree College, Pulivendula, AP (7.1/10) 2021-2024

CERTIFICATIONS

Python Intern Developer, Data Analyst Simulation, Python for Data Science
